Full job description

TITLE: Full Stack Developer (AI-Enabled)

POSITION OVERVIEW: We're hiring a Full Stack Developer to build end-to-end web applications—front end, back end, and cloud. You'll use modern tooling (including AI assistants like Copilot/Claude/ChatGPT) to speed up development while applying strong engineering judgment, testing, and documentation.

WHY JOIN US:

- **Groundbreaking Projects** – Work on AI, robotics, and industry-disrupting software.
- **Innovation Culture** – Be part of a team that values experimentation, creativity, and rapid delivery.
- **Career Growth** – Opportunities to lead projects and shape the future of our AI-augmented development strategy.
- **Central Location** – Based in downtown Vancouver at Alexander Innovation Centre (570 Dunsmuir Street).

- **Facilities** – Brand new campus and office space that emphasizes a culture of environmentally friendly practices. Secure bike lockers and shower.
- Competitive salary & benefits.

WHO WE ARE: Alexander Innovation Centre (AIC) is a dynamic startup based in Vancouver, BC, formed in partnership with Alexander College. AIC focuses on advancing technological innovation across areas such as artificial intelligence(AI), machine learning, data analytics, and advanced engineering. At AIC, we move quickly from prototype to production, with a strong focus on reliability, clarity, and meaningful impact.

REQUIREMENTS:

- Bachelor's or Master's degree in a related field preferred.
- Experience with **robotics, IoT, or AI/ML frameworks**.
- Knowledge of distributed systems and large-scale data processing.
- Background in **startups or rapid development environments** preferred.

RESPONSIBILITIES:

- Design, develop, and deploy **full stack web and mobile applications** using modern frameworks and AI-assisted development tools.
- Architect **efficient, scalable systems** with well-designed data structures and algorithms.
- Optimize application performance and ensure security best practices.
- Integrate APIs, cloud services, and AI/ML components as needed.
- Stay ahead of the curve with the **latest AI, SWE, and tech industry developments**.
- Contribute to technical discussions, architecture decisions, and product innovation.

HOW TO APPLY:

If you're the kind of developer who can **turn ideas into prototypes in weeks and scale them into enterprise-ready solutions in months**, we want to meet you.

To apply, please e-mail your **resume, portfolio, or examples of projects** built with AI-assisted development with the e-mail title being ***"[Your full-name]_Full Stack Developer (AI-Enabled) 2025"*** to hiring@alexica.ca

Applications submitted without work samples will not be considered.

Only shortlisted applicants will be contacted. **No phone calls please.**

All qualified candidates are encouraged to apply; however Canadians and permanent residents will be given priority. Thank you!

Job Types: Full-time, Permanent

Pay: \$70,000.00-\$80,000.00 per year

Benefits:

- Company events
- Dental care
- Extended health care
- On-site parking
- Paid time off
- Vision care

Ability to commute/relocate:

- Vancouver, BC: reliably commute or plan to relocate before starting work (required)

Education:

- Bachelor's Degree (preferred)

Experience:

- Software development: 2 years (required)

Language:

- English (required)

Work Location: In person
